

Root Canal

Homecare Instructions

- You may be numb for several hours following the procedure. Avoid chewing in area until numbness has worn off.
- Take any medications as directed.
- Some discomfort following the procedure is normal and should subside in a few days.
- If a temporary filling was placed, it is normal for small pieces to flake off. If the entire filling comes out please call the office immediately.
- A crown is often recommended after a root canal to protect the tooth. Any delay in crowning a root canal treated tooth may result in fracture or loss of the tooth.

Please call us:

- If you have any questions or concerns regarding your procedure.
- If you have any adverse reactions to your medication.
